

Terri Martin – Destination Specialist

First of all thank you for choosing me to help you plan your next trip! I may be new to World Travel Specialists but I am not new to the travel industry!

In 1976, I studied and received certification at Southeastern Academy of Travel in Kissimmee Florida.

Although my time was brief as a travel agent, my passion for travel has always remained. I have had the pleasure of traveling abroad to Ireland, France and England as well visits to our US bordering countries of Mexico and Canada.

I recently completed my tenth cruise which has allowed me visits to numerous islands and beautiful destinations. Having a son who is an actor has prompted several visits to New York City as well as visits to other major US cities to watch him perform!

My love and enthusiasm for travel has carried over to my family and friends and I often asked to book trips for them, thus the reason I have decided to become an independent travel consultant!

My willingness to research and find the best possible trip to fit your budget is my goal. Your time matters so why not let me plan the perfect trip for you!
